

AFTER THE STORM

Your family. Your home. Your next steps.

For storms, fires, floods & other home disasters

Get safe. Photograph damage when safe. Save receipts.

01

PEOPLE FIRST

- ☐ Check family and pets. Call 911 for immediate danger.
- ☐ Find safe shelter. Gather medications and essentials if safe.

02

BEFORE YOU GO INSIDE

- ☐ Return only when officials allow. Your home may still be unsafe.
- ☐ Stay away from downed wires, floodwater and unstable structures.
- ☐ Smell gas? Leave. Call for help from a safe location.

03

DOCUMENT & REPORT

- ☐ Photograph damage before cleanup—only where safe.
- ☐ Contact your insurer. Renters: notify your landlord too.
- ☐ Save your claim number, receipts and damaged-item list.

04

PREVENT MORE DAMAGE

- ☐ Use qualified help for urgent temporary repairs.
- ☐ Keep generators outdoors, at least 20 feet from doors, windows and vents.
- ☐ After fire or flooding, get professional safety guidance.

05

HIRE CAREFULLY

- ☐ Verify licensing where required, insurance and references.
- ☐ Get written estimates. Read contracts. Avoid full payment upfront.

SAVE THIS. SHARE IT. TAKE ONE STEP AT A TIME.
